Travis is a true professional. He answered my request for a new door and completed the job much quicker than I expected. True Garage was extremely affordable and left my house completely clean and improved with a new insulated garage door. He also went above and beyond to take care of any safety concerns regarding my children. Highly recommend True Garage Door! Can't thank him enough!

I called True Garage Door because of their 5 star rating, which is right on point! My garage door was stuck in the open position at the end of the day on a Friday. I never thought I would find someone to come out at that time, but Travis was right there with a free estimate and a temporary fix. He came back the following week to install a replacement opener. Professional, knowledgeable, personable, and reasonable pricing. I highly recommend True Garage Door.

Knowledgeable, friendly, efficient, a true professional. To get Travis on two hour notice on a Saturday afternoon was an extra plus. It was impressive to watch him replace both garage door springs, and without asking, he lubricated and adjusted the operating system. Very happy with the the workmanship and results.

In a world where everything is out of control and most businesses take advantage when you need them Travis changes all that. I called him yesterday he came and fixed my door today. The price was very reasonable and he does quality work. He didn't try to sell me a new door and he was more than gracious with his expertise. I will call again when I need him and will tell others about him.

Wow! My garage door was stuck closed and Travis showed up within an hour and fixed it within an hour. Also priced it very fairly - I could have lost the whole weekend with 2 cars stuck. Great service!
